THE PHD CORNER

GUIDELINES FOR PREAPPROVAL OF EXTERNAL COURSES

At least 15 of the 30 ECTS points required to fulfil the demands for the PhD education set by the Ministerial PhD Order must come from internal BSS courses.

In case you choose to take external courses, an application for preapproval of the course and a course description must be submitted to your Head of Programme ([Bo Sandemann Rasmussen](#)) before attending the course (i.e. at least 14 days prior to the first course date). The application form must be signed by your main supervisor to confirm that the course is relevant to your PhD project. Both you and your supervisor must suggest how many ECTS the course should give, and a motivation for your suggestion must be included.

Don't forget to update your PhD plan with the planned course and the preapproval as an attachment.

After attending the course, you must submit the preapproved application form, a detailed course programme and the course diploma to the Graduate School.

Don't forget to update your PhD plan again after completing the course.

A more detailed description of the [procedure](#) and the [application form](#) is available via the [Graduate School's website](#).

AARHUS UNIVERSITY PHD ASSOCIATION: APV RESPONSES

[The Aarhus University PhD Association \(AUPA\)](#) has been evaluating the outcome of the APV and identified some major challenges with stress, loneliness, balancing life/work, research collaboration, and project structuring among PhD students across the university. On the basis of this, AUPA has created two initiatives:

“Best practises” toolbox

AUPA has collected a number of ideas, changes, structures, initiatives, tools etc. in a website as a platform for inspiration and ideas as to how specific problems can be handled.

[Read more about AUPA's "best practises" toolbox](#)

Joint Action workshops

AUPA has initiated a series of recurring workshops in order to handle challenges that many PhD students experience. AUPA finds that many PhD students struggle with balancing work/life, stress, establishing good collaborations, and project structuring, and that most PhD students do not discuss how to handle these challenges among each other, but try to manage “PhD life” themselves. AUPA offers PhD students and postdocs a platform to discuss these challenges and share ideas and ways to handle this – and in this way “boost their PhD”.

MARIE SKŁODOWSKA-CURIE ACTIONS AT THE UNIVERSITY OF GRAZ

The University of Graz (Austria) is offering assistance to PhD students and postdocs who wish to apply for an individual fellowship within the Marie Skłodowska-Curie Actions.
