ANDERS BREDAHL KOCK WINS THE GOLDEN POINTER 2017

[Anders Bredahl Kock](#) has been awarded lecturer of the year at Department of Economics and Business Economics by the Oecon/Soc students and received the much-coveted Golden Pointer.

The students compliment Anders for his intriguing and lively lectures, for his motivation, commitment and high spirits when lecturing, for being attentive, and for his good sense of relevance and ability to express himself clearly.

Congratulations, Anders!

The other nominees for the Golden Pointer were: [Alexander Koch](#), [Bo Sandemann Rasmussen](#), [Tom Engsted](#), [Niels Strange Grønborg](#).

The Golden Pointer was introduced in 1990 and has been a tradition at the Department ever since. The prize is meant as a positive recognition from the Oecon/Soc students at the Department. All Oecon/Soc students at the

Department may submit a reasoned nomination, and Oeconrådet then selects the winner based on the number of nominations – with specific emphasis on the students' written recommendations.

ERIC HILLEBRAND RECEIVES GRANT OF 3.6 MILLION FROM DFF

Associate Professor [Eric Hillebrand](#) has been awarded a grant of DKK 3.659.615 from The Danish Council for Independent Research - Social Sciences for his project entitled "Econometric Modeling of Climate Change".

Congratulations!

PHILIPP SCHRÖDER - MEMBER OF THE GOVERNMENT'S NEW DISRUPTION COUNCIL

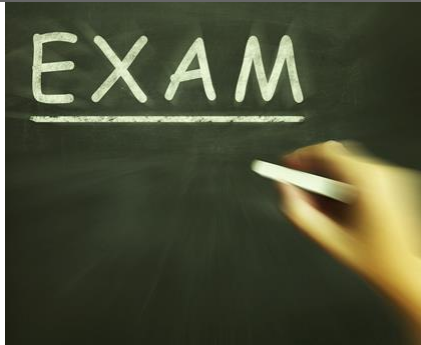

Professor [Philipp Schröder](#) has been appointed member of the government's new Disruption Council, which is a partnership between the labour market parties, companies, experts and ministers.

Prime Minister Lars Løkke Rasmussen will act as chairman of the partnership.

The partnership will analyse, discuss and provide suggestions as to how the future Danish labour market can make the most of the technological development and how we can maintain and develop a dynamic labour market without social dumping.

REMINDER REGARDING MARKING AT AARHUS BSS

With a new exam period approaching, here is a reminder of the BSS guidelines regarding marking at exams:

Co-examiners and examiners must mark numerically from -3 to 12 and B/I (Passed/Not Passed). The mark -3 should only be give if a student has submitted a written exam paper which in terms of academic content corresponds to the mark -3. An exam paper which has been uploaded to the wrong exam flow must also be marked -3.

As from the winter exams 2016-17, examiners must, on a few occasions, type administrative marks (in WISEflow, STADS-VIP or paper based grade reports).

An overview of exams indicating which administrative mark to give and who should give it can be found here: [Administrative marks at exams](#)

Contact your [programme administrator](#) or Mariann Holmslykke (e-mail: mar@au.dk, tel.:21657664) if you have any questions in relation to marking at exams.

NEW PROCEDURES FOR HANDWRITTEN APPENDICES AT WISEFLOW EXAMS

Aarhus BSS Studies will implement new procedures for the submission of handwritten appendices at WISEflow on-site examinations:

FLOWlock exams (WO)

As of the 2017 summer exams, it is no longer possible to submit handwritten appendices at FLOWlock exams (WO). Instead, the students must either use the webcam on their computer to take photos of any handwritten appendices (e.g. drawings by hand, formulas) or use the built-in drawing tool in the programme to create freehand drawings.

Prior to the FLOWlock exams, detailed guidelines will be sent to the students via the exam flow in WISEflow and the guidelines will also be handed out in the exam room.

[See the guidelines here](#) (Please note that these guidelines will be updated with new descriptions prior to the summer exams.)

FLOWassign exams (WOAI and WOA)

At FLOWassign exams, the students can use all the digital tools on their own computer. As such, there is no need to submit handwritten appendices at these exams.

However, if the lecturer has a well-founded reason for allowing the students to submit handwritten appendices at a FLOWassign exam, this is still possible.

This must be indicated on the [exam information sheet](#) by ticking the box "Handwritten attachments allowed". The exam information sheet must be submitted to the BSS Studies Administration in the usual way and the reason for permitting handwritten appendices must be included in the email.

Please contact your [programme administrator](#) if you have any questions regarding this.

ANONYMIZATION AT EXAMS

As from the summer exams 2017, the students will be anonymized at the written take-home assignments and the on-site exams without a subsequent oral exam. This means that flow-serial numbers will be used instead of student registration numbers at these exams.

Student registration numbers will still be used in connection with:

- written take-home assignments and on-site exams with a subsequent oral exam
- hand-written on-site exams (ON)
- exams that consist of several parts where one mark is given
- group assignments.

Please contact your [programme administrator](#) if you have any questions regarding the anonymization at exams.

STAFF PORTRAIT

STAFF PORTRAIT: CARSTEN BERTHRAM ANDERSEN

This time [Carsten Andersen](#) has agreed to answer the questions for the staff portrait. Thank you, Carsten. Carsten is a PhD student at the Department and is member of the Labour and Public Policy section.

How long have you been a PhD student at the Department of Economics and Business Economics?

Since August 2016, so nine months.

What is your background?

I have an MSc in Mathematics-Economics from Aarhus University, where I graduated in 2016.

What are your main areas of research?

Health Economics - e.g., the relative contributions of education and intelligence in mortality outcomes.

What is in your experience the biggest difference between being a PhD student and being a regular student?

Monthly income and the amount of street credit from the outside world.

Are you teaching any classes this semester, or what are you going to teach next semester?

I am currently a teaching assistant in Quantitative and Qualitative, Limited Dependent Variables (4th semester econ). Next semester I will be lecturing a 10-hour brush-up course in econometrics, possibly grading some exam papers and then I will practically have finished the teaching obligations.

Are you planning to take part in any conferences or PhD courses in the near future?

In a few weeks I am going to a research workshop on public policies, health and health behaviors, where I plan to bring a poster presenting some results/research ideas. I am possibly doing a DGPE course on spatial econometrics in June.

Have you been abroad in connection with your PhD study (or where are you planning to go)?

I have not been abroad yet, and have not figured out where to go.

What do you do when you are not at work?

Play football (by which I naturally mean soccer), read books, being with friends. Currently going through 'Mad Men' at high pace with my girlfriend.

Supplementary question from [Jorge Hansen](#): How many (math) equations are there in your master thesis?

"There were three math equations in my master's thesis. Frankly, this shocked Jorge when I told him. And I think this is why he wants me to admit it in public. I guess that number is sort of a record in master's theses from the Department of Mathematics. However, the thesis turned out fine and as a wise man once said: 'The number of equations in a master's thesis is not a quality measure in itself.'"

Please give us your suggestion for the next department staff member to be presented:

[Lars Skipper](#)

What specific supplementary question would you like him to answer?

Suppose you could not be an Economist, but had to choose a programme from the Humanities/Arts Department - then what would you be, and why?

CALL - AUFF STARTING GRANTS 2017

The Aarhus University Research Foundation's (AUFF) has announced its call for applications for AUFF Starting Grants 2017.

With AUFF Starting Grants, The Aarhus University Research Foundation wishes to secure outstanding researchers good career opportunities at Aarhus University and, moreover, promote particularly promising internationally renowned research at the four faculties.

The September application round is aimed at growth areas at Aarhus University, and the 2017 call for AUFF Starting Grants is targeted at assistant and associate professors employed by 1 July 2016 or later.

The application deadline is Friday 1 September 2017 at 12:00 noon.

WORKSHOP AND APPLICATION SUPPORT FOR ERC STARTING GRANT APPLICANTS

The Research Support Office is hosting a workshop for ERC Starting Grant applicants on 8 June.

The workshop will give you an understanding of the ERC proposal and let you work directly on your proposal elements:

- Develop your idea around ERC concepts
- Discuss your idea with other applicants
- How to choose your panel
- Intro to the budget – what is possible?

In addition, the applicants are offered guidance, feedback and support up to the deadline in mid-October.

[Read more about the ERC Starting Grant workshop and support here](#)

Note also that there will be an information meeting about ERC on 23 May.

[Read more about the information meeting here](#)

Applicants for Consolidator and Advanced Grants are also offered support. Please contact the [Research Support Office](#) if you are planning to apply for those grants. The next deadline for Consolidator grant applications is expected

to be in February 2018, and deadline for Advanced is 31 August 2017, and after that September 2018.

GRANTS FOR INDUSTRIAL PHD AND INDUSTRIAL POSTDOCS

The Innovation Fund Denmark and Realdania has announced 10 new grants for industrial researchers at PhD and postdoc-level to join a research cluster in BLOXHUB.

The aim is to support sustainable and smart city solutions to ensure that more companies within the industry improve their ability to combine experience-based and knowledge-based elements in their innovation efforts.

Deadline for applications is 25 September 2017.

An information meeting about the grants will be held in Copenhagen on 25 May.
