TALENT DEVELOPMENT AT ITS BEST

The new AU profile brochure brings a story about [CREATES](#) member [Cristina Scherrer](#) because she is one of the many international junior researchers that has been attracted to AU in a tenure track position as part of the university's initiative to offer international research talents a clear, attractive career path.

Cristina holds a PhD in economics from the University of London, and she has taught at the London School of Economics and was a PhD intern at the Bank of England. Although she had the option of remaining in London she chose to come to Aarhus, and she is now employed as assistant professor at the Department.

BETTER CLEANING

The quality of the cleaning service at the Department has been unsatisfactory for quite some time, and we therefore asked for an impartial general check-up of the cleaning of the Department's buildings.

The check-up concluded, not surprisingly, that the quality of the cleaning is not good enough, and we have now been promised substantial improvements.

ALL ABOUT FUNDING

CORRECTION TO DFF (FSE) CALL FOR PROPOSALS

On 22 September the Danish Council for Independent Research (DFF) made a correction to its Call for Proposals. The correction applies to the following instruments:

- DFF-Individual Postdoctoral grants
- DFF-MOBILEX mobility grants
- Sapere Aude: DFF-Research Talent
- Sapere Aude: DFF-Starting Grants
- Sapere Aude: DFF-Advanced Grants
- DFF-Research Project 1
- DFF-Research Project 2
- DFF-Research Project 3

Please see page 2 in the Call for Proposals (below). The correction is about a declaration regarding the place where the project will be carried out. If the project will be carried out in another institution, one needs to upload a written statement from the hosting institution. If the hosting institution is the same as the one administering the grant, one needs to upload the appendix anyway, but merely write "appendix not relevant".

There is now a mandatory project description template and all applications have to be made through the E-grant portal, see page 6 in the call.

STAFF PORTRAIT

STAFF PORTRAIT: INA CHARLOTTE JÄKEL

This time [Ina Charlotte Jäkel](#) has agreed to answer the questions for the staff portrait. Thank you, Ina. Ina is assistant professor at the Department and is affiliated with The Tuborg Research Centre for Globalisation and Firms.

How long have you been employed at the Department of Economics and Business?

Since 2010

What is your background?

I have a Bachelor degree in European Studies from the University of Osnabrück and a Master degree in International Economics from the University of Tübingen. I came to Aarhus for my PhD, which I concluded last year. During my PhD studies, I visited Marc Muendler at UC San Diego for half a year.

What are your main areas of research?

I'm doing empirical research in International Economics, at the intersection with Industrial Economics. Broadly speaking, I look at firm internationalization. Here, I'm particularly interested in the role of product quality in international trade and how it shapes exports across destinations. I also have some projects in Political Economy, where we look at individual attitudes towards globalization.

What research projects are you working on at the moment?

I'm currently starting a series of projects where we look into the role of strategic interaction between firms in export markets. The global economy is largely dominated by a few very large firms, but surprisingly little is known about the behaviour of these "superstar" firms. I'm specifically interested in how interactions between these firms might alter the impact of trade policy.

What are you involved in teaching-wise at the moment?

At the beginning of the fall semester, I taught a "Brush-up" intensive course in

Statistics and Econometrics for our incoming Master students in the IEC program. In the spring, I will teach International Economic Integration (IEC, 2. semester) and part of the "Business Economics" (BscB, 2. semester).

Are you planning to take part in any conferences or the like abroad in the near future?

I'm currently involved in the organization of our annual joint Christmas Workshop of the Tuborg Center and the Kiel Institute for the World Economy, which will take place in Kiel in December.

Are you expecting any visiting researchers from abroad in the near future (or have you had any visitors from abroad recently)?

Federico Ciliberto from the University of Virginia will come to Aarhus to work on our joint projects regarding "superstar exporters" later this fall.

Are you cooperating with researchers from other departments at AU at the moment?

No

What do you do when you are not at work?

I recently moved to Vejle and now I spend most of my weekends discovering the surrounding nature (if the weather permits), either on foot or by bike. I like to cook (and eat) and often organize dinners with friends. I also LOVE to travel.

Please give us your suggestion for the next department staff member to be presented:

[Roger Bandick](#)

What specific supplementary question would you like him or her to answer?

Did you enjoy the World Cup this year?
