Notes: All selected journals are at the highest levels, 4 and 4*, in the ABS Academic Journal Guide 2015 (AJG) and ranked at level 1 in the May 2016 Categorization of Journals in Economics and Management by the Comité National de la Recherche Scientifique (CNRS). Level 1 is best in the CNRS ranking and “e” and “g” indicate that the journal is of particular high standing in “economics” and “business/management,” respectively. The list also shows whether the journals appear on the FT45 journal list, used by the Financial Times for research rankings of business schools, or not.
