NEW HOLIDAY RULES

A new holiday act will enter into force in Denmark on 1 September 2020, which means that all employees will switch to concurrent holiday (samtidighedsferie). Concurrent holiday basically means that the holiday earned during the year can be held on an ongoing basis.

When the new holiday act comes into force, you will be able to take holiday as you earn it – i.e. you earn 2.08 holidays per month, and it will be possible to take holiday in advance – i.e. before it is earned.

In general, there is no need to speculate in transferring holidays to 2020. If you have earned your full holiday entitlement, you will have 16.6 days of holiday at your disposal for the summer 2020 and special holidays will be added to this.

The transitional year runs from 1 September 2019 to 31 August 2020. The holiday you earn in the transitional year will be frozen and saved to a new fund – *Lønmodtagernes Fond for Tilgodehavende Feriemidler*. This is to prevent double entitlement when switching to concurrent holiday in 2020. You will receive the frozen holiday when you reach retirement age or leave the Danish labour market. Only holiday earned in the period 1 September 2019 to 31 August 2020 will be frozen in the fund. If you have transferred holiday, the transferred holiday will not be frozen.

AU HR has set up a webpage with the answers to a number of frequently asked questions in relation to the new holiday act. The webpage is available in both Danish and English (switch language in the upper right corner). See the webpage via the link below:

If you have any questions regarding holiday, please contact [Betina Sørensen](#) via absence@econ.au.dk

AU EVACUATE APP

As mentioned in previous issues of ECON News, AU has developed an evacuation app that sends out emergency alerts in critical situations where either specific buildings need to be evacuated, or where other critical circumstances require that a message must reach everyone in a specific area as fast as possible.

The app alerts you directly by means of an alarm sound on your smartphone, and keeps you updated on how the situation is developing, and it notifies you when the crisis is over. The app will also alert you when there is an evacuation drill.

All employees are encouraged to download the app on their smartphone – remember to allow push notifications (messages displayed on the phone screen regardless of whether the phone is locked or in use). The app is called “AU Evacuate” and can be downloaded in App Store or Google Play.

If you do not have a smartphone with iOS or Android, you can choose to receive SMS and/or email notifications from AU Evacuate by registering via the link below.

AUFF CALLS: NOVA GRANTS AND PUBLICATION SUPPORT

The Aarhus University Research Foundation (AUFF) has announced two calls for applications - for the AUFF Nova 2019 funding programme and for the AUFF Publication Support:

- **AUFF Nova grants**

The aim of AUFF Nova is to stimulate courageous and innovative research projects of high quality – projects which may have difficulties obtaining alternative funding. The project must be pioneering in its field and show clear potential for scientific breakthroughs. The hypothesis or problem behind the project may require development of new methods and it may challenge existing paradigms. If relevant, multi-disciplinary elements and synergies within the research team(s) should be clearly identified.

The programme includes two types of grants:

- Small projects (up to DKK 600,000) with a duration of 1-2 years
- Large projects (up to DKK 3 million) with a duration of 3-4 years

The deadline for applications is 4 October at 12 noon.

The foundation assigns priority to ground-breaking publications with a special view to highly esteemed international channels of publication, mainly large international publishers.

Applicants must be employed at Aarhus University. Professors emeritus may also apply.

The 2019 pool for publication support comprises a total of DKK 1.5 million.

Deadline for applications is 4 September 2019 at 12 noon.
